Chicago, IL 60602

PETITION

Petition Summary and Background	<p>The trucks of the Hough Place Station Project, located at 2500 South Corbett Street; Chicago, IL 60608, has raised the following concerns in our community:</p> <ul style="list-style-type: none">● Dump trucks are using a residential street and traveling at speeds dangerous to its residents, especially children.● The weight of the trucks combined with their speed are creating vibrations in the homes which are causing the walls of the homes to crack and damaging the home's foundation.● From 6:00am to 3:00pm, the trucks use 25th Street to transport rock and mud from the Hough Place Station Project to another site. In transit, the rocks are flying off the trucks damaging the vehicles parked on the street.● Two incidents have occurred in which vehicles were damaged.● The trucks are causing cracks and potholes in the streets.● The material left behind by the trucks is being breathed in by the residents, inside and outside of the home, which is a health concern to the children and elders.● Attempts made to keep the material left behind to a minimum with water trucks have left our streets muddy and our vehicles caked with the material.
Action Petitioned for	<p>The residents of the 1100 block of West 25th Street are dissatisfied with the outcome of the meeting between the representatives of Peoples Gas, Marina Cartage, and the manager of the Hough Place Station Project.</p> <p>We, the undersigned, are concerned citizens who urge our leaders to act now to mandate an alternate route for the trucks of the Hough Place Station, away from residential areas in order to maintain the health and safety of the residents.</p>
